

The human side is our job - Since 1999 serving people who suffer

The Auxilium Cooperative takes care of people experiencing physical discomfort, psychic and social. Since 1999 we work with humanity, passion, and professionalism in close contact with people who suffer.

Auxilium manages and develops health, social welfare, social and educational services, pursuing human promotion and social integration. A great reality operating in many Italian sectors related with welfare, offering innovative and integrated services and uniting quality, efficiency, proximity, and solidarity.

Our services include: home care, retirement homes, healthcare residences, hospices, therapeutic rehabilitation residences for psychiatric patients, Alzheimer's groups, homes for minors and single mothers, Personalized School Assistance, Daily centers for people with physical and mental disabilities, and centers for migrants. Through a wide range of services that improve the quality of life, we always put the person at the center. The cooperative collaborates with Universities, with Research Institutes, with the Public Health sector, and with some of the major players in the field of health.

Auxilium believes that the first aim of a social cooperative is to respond to the needs of the community, living and working close to the people and building relationships with both the citizens and the institutions. Our work is aimed at promoting human and social cohesion, especially in the lowest social layers.
